CONTENTS

5	1 SETS & SUBSETS OF NUMBERS
5	1.1 The big picture (from natural to complex numbers)
6	1.2 Natural numbers and whole numbers
7	1.3 Time Travel: Zero - exclusive interview
8	1.4 Time Travel: Natural discovery
9	1.5 Integers
9	1.6 Time Travel: Positive about negatives
10	1.7 Rational numbers
11	1.8 Time Travel: Egyptian numerals / fractions
13	1.9 Irrational Numbers
13	1.10 Real Numbers
14	1.11 Time Travel: Pi - interview
15	1.12 Venn diagram puzzle #1
16	1.13 Venn diagram puzzle #2
17	1.14 Integers game
18	1.15 Where do I belong?
19	1.16 Closed sets
20	1.17 Imaginary numbers
21	1.18 Complex numbers
22	1.19 Research & tell a number story
23	2 INFINITY, LIMIT & DENSITY
23	2.1 Time Travel: Infinity - exclusive interview
25	2.2 How big is infinity?
26	2.3 What is a limit?
30	2.4 The limit of the marathon record
32	2.5 Infinity paradoxes
33	2.6 Modelling infinity & limit with code (Scratch, Python)
35	2.7 Time Travel: Limit - exclusive interview
36	2.8 Density
38	2.9 Natural density of even numbers
40	2.10 Natural density of $\{1\}$
42	2.11 Natural density of square numbers
46	2.12 Natural density of prime numbers

49	3 POWERS
49	3.1 Meaning of exponents
50	3.2 Playing with powers with code
54	3.3 Multiplying powers
55	3.4 Dividing powers
56	3.5 Power of a power
57	3.6 Zero exponent
58	3.7 Negative exponents
59	3.8 Scientific notation
60	3.9 Play a game
61	4 INTEGERS
61	4.1 Integers in science
63	4.2 Math elevator
65	4.3 Adding & subtracting integers
66	4.4 Positive about negatives skit
67	4.5 Multiplying & dividing integers with code
69	4.6 Adding & subtracting integers: part 2
70	4.7 Integers challenges
71	5 FRACTIONS
71	5.1 Multiplying fractions on a grid
72	5.2 Adding fractions on a grid
73	5.3 Fractions friends skit
75	5.4 Adding & subtracting fractions
76	5.5 Fractions sleuth
77	5.6 Fractions game
76	5.7 Decimals game
78	5.8 Which does not belong?
80	5.9 Fractions challenges
81	6 RATIOS, PROPORTIONS & RATES
81	6.1 Ratio concepts
82	6.2 Part-whole ratios
83	6.3 Part-part ratios
84	6.4 Ratios & fractions with code
85	6.5 Proportions
86	6.6 Ratios & rates
87	6.7 Modelling evaporation rates
90	6.8 Ratio concepts mind-map

CONTENTS

4 WHAT DID YOU DO IN MATH TODAY?

- 4 Talking about mathematics
- 4 Mathematics = logic + story
- 5 Mathematics worth talking about
- 5 Content vs context
- 6 Low floor & high ceiling
- 7 Mathematics + coding
- 9 The goal of this book
- 9 Teaching with this book

10 NUMBER

10 1 Sets & subsets

- 10 Trajectories, surprises & insights
- 11 Success criteria
- 12 Act 1. Sets & subsets
- 13 Act 2. Closed sets
- 14 Act 3. Beyond real numbers
- 15 Act 4. Research & tell a story
- 16 Solutions

17 2 Infinity, limit & density

- 17 Trajectories, surprises & insights
- 18 Success criteria
- 19 Act 1. Infinity & limit
- 20 Act 2. Natural density
- 21 Act 3. Tell a story
- 22 Solutions

23 3 Powers

- 23 Trajectories, surprises & insights
- 23 Success criteria
- 23 Act 1. Exponent patterns
- 24 Solutions

25 4 Integers

- 25 Trajectories, surprises & insights
- 25 Success criteria
- 25 Act 1. Operations with integers
- 25 Act 2. Tell a story
- 26 Solutions

27 5 Fractions

- 27 Trajectories, surprises & insights
- 27 Success criteria
- 27 Act 1. Multiple representations
- 27 Act 2. Tell a story
- 28 Solutions

29 6 Ratios, proportions & rates

- 29 Trajectories, surprises & insights
- 29 Success criteria
- 30 Act 1. Applications
- 30 Act 2. Tell a story
- 30 Solutions
